

**LIST OF MAJOR PRODUCT MANUFACTURERS  
USED IN POLYGON FIRE PROTECTION PROJECTS**

- Sprinklers, valves and equipment

- TotalPac®3 / Preaction or deluge integrated systems
- ICAF / Integrated compressed air foam systems
- FireFlex® 1230 / Integrated NOVEC systems
- FireFlex® Dual / Integrated NOVEC 1230 & preaction systems

- Conventional and addressable fire alarm systems

- Fire suppression systems for micro-environments
- Fixed extinguishing systems for large applications

- NOVEC 1230 clean agent fire suppression systems for large applications
- NOVEC 1230 clean agent fire suppression systems for micro-environment
- NOVEC 1230 thermatic domes for small rooms protection

- Toxic and flammable gas detectors

- Very early warning fire detection

- FM-200 clean agent fire suppression systems
- Dry-chemical extinguishing systems

- Linear heat detectors
- Control panels
- Alarm devices

- Carbon dioxide (CO<sub>2</sub>)
- FM-200 for clean agent fire suppression systems

- Flame detectors
- Toxic and flammable gas detectors

- Flame detectors
